Our Mission:

Interim Executives Academy fosters the most comprehensive learning and high quality practice available to professional interim leaders of nonprofit organizations in the United States and Canada.

THE INTERIM EXECUTIVES ACADEMY EXPERIENCE IS DESIGNED TO OFFER EACH PARTICIPANT:

A clear pathway to navigate a successful Interim Chief Executive engagement using proven protocols and management interventions.

A strong sense of professional identity and market brand as an interim leader pursuing a successful practice that advances strategic transitional methodologies for nonprofit organizations, associations, and congregations.

A formal affiliation with peers to pursue continuing education and peer networking as a community of practitioners who have each earned a Certificate of Completion from the Academy.

THE INTERIM EXECUTIVES ACADEMY EXPERIENCE

Experience One:

15 Hours of Classroom Instruction

The focal point of the Interim Executives Academy Experience focuses on the essential methodologies and tools to effectively provide strategic transitional leadership to a nonprofit organization, association or congregation.

Experience Two:

The Interim Executives Academy Google Group

Participants in the Academy became part of a moderated online community of peers who can ask questions, get into a discussion, reach out for help, and access documents presented in the class as well as timely articles.

Experience Three:

The Interim Executives Roundtable

In selected communities, the Academy welcomes alumni and those interested in the interim executive profession for bi-monthly gatherings to discuss specific topics of interest critical to successful interim practice.

Experience Four:

Continuing Education Workshops

Based on the learning needs of Academy graduates, a quarterly workshop will be offered to pursue specific protocols, interventions and other topics associated with a successful interim practice.

Experience Five:

Alumni Placement Services

The Academy, in partnership with Third Sector Company, will represent its alumni to interested nonprofit organizations desiring an interim executive leader. All placements include a senior advisor from the Academy assigned to support and assist the interim and the nonprofit throughout the duration of the engagement.

Experience Six:

The Interim Executive Advisory Council

The Advisory Council is comprised of alumni, funders, educators and community leaders who want to participate in strategies that advance the capacity-building opportunities of interim leadership in the community through advocacy, fundraising and recognition efforts.

Experience Seven:

The Interim Executives Academy Alumni Association

The Alumni Association is a group of Academy graduates who seek to build and maintain a strong community of practice among professional interims in the United States and Canada through networking events, social and online experiences.

Experience Eight:

Social Media Discussions

Interim Executives Academy welcomes all participants to shout-out what they are experiencing on social media during classes and during any of our experiences! We love good conversations that excite interim professionals to celebrate their profession and encourage nonprofits to engage them.
