

# INTERIM DEVELOPMENT DIRECTORS BOOTCAMP 2024

A Comprehensive Training & Service Delivery Program of Third Sector Company, SPC

## APPLYING THE INTERIM EXECUTIVE MODEL TO TRANSFORMATIONAL DEVELOPMENT LEADERSHIP

There are six phases associated with a methodical engagement as an interim chief executive of a nonprofit organization. But how can those models and practices be adapted to result in an equally logical approach to the work of an interim chief development officer? Interim Executives Academy is proud to launch a new bootcamp that prepares graduates to consider application of the Academy's interim leadership models to the fundraising function.

### ADVANCING STRATEGIC INTERIM DEVELOPMENT LEADERSHIP

During this two-day bootcamp, participants will review the logic model of interim leadership with discussion about application to short-term strategic leadership as an Interim Chief Development Officer. Particular attention will be spent:

- Analyzing current fundraising trends and discussing what constitutes excellent fundraising leadership for community impact organizations in 2024 and beyond.
- Constructing a realistic picture of fundraising functions and cultures that have experienced a leadership transition.
- Identifying the expectations that executive directors, board, fundraising committees, and volunteers would have of transitional fundraising staffing.
- Applying the six phases of interim leadership to a typical interim fundraising engagement.
- Reviewing Third Sector Company's recommended protocols and interventions unique to chief development officers.

***Bootcamp graduates will receive a certificate, ongoing support from Third Sector Company as a professional interim development officer, invitation to recurring Interim Development Director study group sessions hosted by Third Sector Company, and the opportunity to earn a digital badge indicating successful completion of interim development director studies.***
