

# INTERIM DEVELOPMENT DIRECTORS BOOTCAMP 2025

A Comprehensive Training & Service Delivery Program of Interim Executives Academy

## APPLYING THE INTERIM EXECUTIVE MODEL TO TRANSFORMATIONAL DEVELOPMENT LEADERSHIP

There are six phases associated with a methodical engagement as an interim chief executive of a nonprofit organization. But how can those models and practices be adapted to result in an equally logical approach to the work of an Interim Director of Development? Interim Executives Academy is proud to present a Bootcamp that prepares aspiring and practicing nonprofit leaders to consider the application of its interim leadership models to the fundraising function.

### ADVANCING STRATEGIC INTERIM DEVELOPMENT LEADERSHIP

During this three-day bootcamp, participants will review the logic model of interim leadership with discussion about application to short-term strategic leadership as an Interim Development Director. Particular attention will be spent:

- Analyzing current fundraising trends and discussing what constitutes excellent fundraising leadership for community impact organizations in 2025 and beyond.
- Constructing a realistic picture of fundraising functions and cultures that have experienced a leadership transition.
- Identifying the expectations that executive directors, board, fundraising committees and volunteers would have of transitional fundraising staffing.
- Applying the six phases of interim leadership to a typical interim fundraising engagement.
- Reviewing Interim Executives Academy's recommended protocols and interventions unique to nonprofit development directors.

***Bootcamp graduates will receive a certificate, ongoing support from Interim Executives Academy as a professional interim development director, invitation to recurring Interim Development Director study group sessions hosted by Interim Executives Academy, and the opportunity to earn a digital badge indicating successful completion of interim development director studies.***
